

*Permission form E (for Years 11 & 12): Study periods*

All Students have study periods assigned to them during the week. These are not free periods. These times are made available during school hours in order that students have the opportunity of using of the Library and Computer resources.

Quiet spaces have been made in the library to facilitate students' study needs.

Should students find it more convenient to work at home during these periods, the signed form below needs to be handed to the Class Guardian. The students are then expected to enter their names on a register (held in the Office reception area) when leaving and entering the School during school hours.

With Thanks,  
Stan Stevens, Administrator
